# Safeguarding Your World

Innovative Fire Protection & HVAC Solutions  
For Every Industry

رؤية  
VISION 2030  
المملكة العربية السعودية  
KINGDOM OF SAUDI ARABIA

Energy & Building Masters (EBM) is a Middle East based Fire Protection and HVAC company centered in delivering quality-engineered products, prompt service and support to the clients within different industries.

Since the very inception, we upheld high standards in providing practical and cost-effective service and we have achieved an influential, long-term reputation in the competitive environment in which we operate.

# PIONEERS IN ENGINEERING SOLUTIONS

شركة رواد البناء للطاقة  
Energy & Building Masters

## 15 YEARS OF GREAT HISTORY & HONORS COUNTING

EBM Saudi Arabia concentrated in the supply, installation, testing & commissioning and preventive maintenance for HVAC systems, Electromechanical and Fire & Safety Protection products for commercial and industrial projects, across the Middle East. Our quality service is an integrated model of hard work of our multidimensional team of industry-leading professionals having more than 15 years of excellence in the respective industry. We make the most of our expertise and resources to undertake projects of any scale from conception to operational handover or in upgrades or additional works. Over the time, we have formed a reliable reputation for delivering quality outcomes on projects across a range of industries because of our dedication, excellence, and integrity on low profit-consciousness and environmentally and socially responsible practices. We always make sure to provide dedicated service on customers' demand with the best quality.

# INNOVATIVE RANGE OF SOLUTIONS

## Supply Of World-Class Products & Solutions

At EBM, we hold an unwavering commitment to delivering superior quality products and solutions across a wide array of categories from fire safety to HVAC and electromechanical solutions, ensuring the success of projects across diverse industries. Our comprehensive range caters to both commercial and industrial sectors, providing complete solutions that consistently exceed customer expectations.

Our offerings include:

- Fire Protection & Fire Fighting
- HVAC Equipments
- Waste Heat Recovery Systems & Boilers
- Industrial Parts & Equipment
- Renewable Energy

## Installation & Contracting Services

EBM goes beyond just delivering products, offering comprehensive project solutions from initiation to completion. With a proven track record of managing diverse projects globally, our skilled teams ensure precise and timely installations, guaranteeing operational efficiency.

## Preventive & Periodic Maintenance

EBM excels in preventive and periodic maintenance services for HVAC, boilers, and chiller plants. With over 30 years of experience, we deliver comprehensive support, ensuring meticulous attention to operational details, and offer unique preventive maintenance solutions, guaranteeing enhanced equipment performance throughout their lifecycle.

# WORLD-CLASS PRODUCTS

## Fire Protection & Fire Fighting

At EBM, we lead the industry in providing the best brands in fire protection solutions. Our top-tier products offer unmatched safety and security against fire hazards. With a commitment to excellence, we safeguard your spaces, ensuring peace of mind in the face of fire-related risks.

## HVAC

We at EBM take pride in offering a curated selection of HVAC products featuring the industry's best brands. Our commitment to excellence means you'll find top-quality heating, ventilation, electrochemical and air conditioning solutions for your every need. Your journey to superior HVAC starts here.

## ▶ Passive Fire & Smoke Protection System

EBM deals with a wide range of fire & smoke curtains and fire protection products to protect every type of building application. From protecting means of escape and boundary protection to provide a building with a system that offers effective fire and smoke compartmentation. We offer various solutions to architects, engineers, consultants and designers providing the ability to design complex buildings that adhere to fire regulations and offer protection against fire and smoke.

### Our Brands Include

Coopers Fire are dedicated to advancing fire curtain and smoke curtain technology and improving ways to safeguard life and property. This commitment to developing innovative products that are robustly tested and independently certified has meant that Coopers has become the benchmark used by Regulators, Architects, Engineers and other Fire Professionals worldwide.

## ► Fire Fighting System

EBM is a leading distributor of top-tier fire-fighting products, ensuring unparalleled safety for industrial, residential, and commercial clients. Our extensive range includes fire-fighting pump sets, valves, sprinklers, cabinets, and hydrants. With a commitment to excellence, we safeguard buildings from fire hazards, offering premium solutions that meet the highest standards of safety and compliance.

**DUYAR**  
SINCE 1935

EBM stands out as a premier distributor, specializing in cutting-edge pump installations for fire-fighting systems. Our heavy-duty pumps are trusted globally for their excellence in fire prevention, delivering tailored solutions for enhanced safety. EBM prioritizes technology, quality, and environmental sensitivity, offering pump groups, fire extinguishing systems, and booster pumps engineered for international efficiency. Our commitment to excellence and innovation sets us apart in the global market.

## ▶ HVAC – Fans

EBM stands at the forefront of HVAC fan distribution, offering a premier selection that includes smoke extraction fans, axial fans, car park jet fans, as well as industrial and commercial exhaust fans. As a trusted distributor, EBM delivers cutting-edge solutions to enhance air quality and ventilation in diverse settings. Our commitment to excellence ensures access to top-tier products, meeting the unique demands of both industrial and commercial environments.

### Our Brands Include

For 70 years, Ayvaz has expertly crafted fire-fighting equipment, specializing in cutting-edge valves, sprinklers, and hydrants. Their commitment to the latest technology and decades of experience reflects in bespoke solutions. Ayvaz's reliable offerings span global sectors, from petrochemical to hydroelectric power plants. As a proud member of the Association Euro-Qualiflex, Ayvaz exports high-quality products to 100 countries, impacting hundreds of thousands of projects worldwide.

## ▶ Air Curtains, Ventilations and HVAC Controls

EBM takes pride in being a distinguished distributor of premier brands in HVAC Air Curtains, catering to both industrial and commercial needs. Our offerings provide effective climate control, ensuring energy efficiency and comfort in diverse environments. With a commitment to excellence, EBM delivers top-notch solutions, enhancing the functionality and energy efficiency of spaces through cutting-edge HVAC Air Curtain technology.

### Our Brands Include

Based in New Castle, USA, Berner stands out as an HVAC Air Curtain expert, blending engineering expertise, technology and quality. Berner's Commercial, Architectural, and Industrial Air Curtains set the standard in preventing energy loss and ensuring comfort. Architects, builders, and specifiers prefer Berner for its energy-efficient solutions and a 60-year legacy of unmatched quality and performance. The company stands firm in its commitment to top-tier products and exceptional service.

Ventilation Control Products Sweden AB (VCP) specializes in peripheral control products for building and industrial automation, catering primarily to HVAC contractors. Our extensive range of products is compatible with leading systems, including Siemens Landis & Staefa, Invensys/Satchwell, Honeywell, Johnson Controls, TAC, Andover, Schneider Electric, Trend, Sauter, York, Danfoss, Alerton, Cylon, and more, ensuring seamless integration across diverse platforms.

## ▶ HVAC – Equipment

EBM stands at the forefront as a leading distributor of premier HVAC accessories for commercial and residential projects. Specializing in reputed international brands, EBM offers a comprehensive range, including ecology units, expansion tanks, diffusers, filters, and expansion joints. Renowned for reliability and quality, EBM is the trusted choice for ensuring excellence in every aspect of heating, ventilation, and air conditioning solutions.

### Our Brands Include

Prime AC Industries, a beacon in HVAC solutions, offers a range of superior products including Fire & Smoke Dampers, Air Terminals, Diffusers, Filters and more. With a commitment to globally certified Quality Management System (TQM) procedures and ISO 9001:2015 certification, Prime AC ensures precision and excellence in every product, meeting international standards seamlessly.

Nystrom specializes in roof hatches designed for safe personnel access to building rooftops, mitigating risks to workers and surrounding individuals. The hatches feature simultaneous protection barrier raising, ensuring safety. Crafted from top-quality materials like extruded aluminum or stainless steel, Vent Line's products guarantee efficient performance, seamlessly complementing building features. With customizable dimensions, shapes, and an array of colors and finishes, Vent Line provides tailored solutions to meet diverse architectural needs.

Roof Smoke Vents Hatches

Renowned for excellence, we distribute premier climate control solutions from industry giants CAREL and FRAL. CAREL leads in integrated systems for air conditioning, refrigeration, and heating, driving innovation across commercial, industrial, and residential sectors. Meanwhile, FRAL excels in drying and dehumidification, delivering superior solutions globally.

Since 1979, Filtrotecnica Italiana has stood as a distinguished leader in the realm of air filtration and dust collection for both civil and industrial applications. The company's commitment to excellence is reflected in its adherence to a stringent Quality Assurance program compliant with UNI EN ISO 9001 standards since December 16, 1996. From design to assembly, Filtrotecnica Italiana ensures top-notch quality, making it a trusted name in the industry for over four decades.

Inertial Filters and Bleed Fans

Enerkon is a leading force in industrial solutions, specializing in manufacturing boilers, economizers, and custom containers. With a commitment to innovation and sustainability, the company focuses on developing energy conservation-oriented projects and on-site manufacturing of (waste) heat recovery devices, reflecting a dedication to progressive and sustainable energy solutions.

## ▶ Industrial Equipments

EBM excels in providing premium industrial parts tailored for diverse applications. Our offerings include thermoplastic valves for chemical, iron & steel, desalination, and water treatment, as well as automatic self-cleaning filters for cooling towers, HVAC, agriculture, and more. We specialize in Heat Exchangers, compressors, various pumps, CIP, hygienic process systems, and equipment across industries.

### Our Brands Include

# RENEWABLE ENERGY SOLUTIONS

## Pioneering sustainability

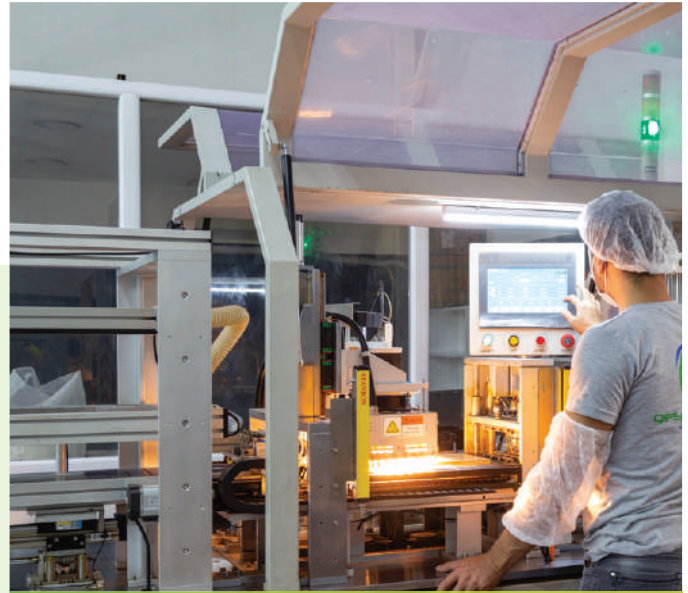

At EBM, we specialize in providing cutting-edge building-integrated photovoltaics (BIPV), offering seamless integration of solar power generation within the building envelope. Our BIPV solutions are meticulously incorporated into various building components, including façades, roofs, and windows, enhancing both aesthetics and functionality.

In addition, we deliver turnkey Photovoltaic (PV) solutions tailored for Automated Trailer Machines (ATM) and telecommunication towers. These comprehensive solutions encompass bespoke PV panels, LifePO4 energy storage with intelligent Battery Management Systems (BMS), and online inverters with grid connectivity.

Our commitment to customization extends to the manufacturing of solar modules and LifePO4 battery packs, allowing us to cater to diverse customer needs. With options for different shapes, power capacities, and materials, EBM stands as a versatile and reliable partner in sustainable energy solutions.

A construction worker wearing a yellow hard hat and a high-visibility vest is looking down at a set of blueprints. In the background, another worker in a red hard hat and orange vest is working on a piece of machinery. The scene is set in a factory or industrial environment with overhead lights.

# INSTALLATION & CONTRACTING SERVICES

## From Concept to Conclusion

At EBM Saudi Arabia, our installation services extend beyond mere product delivery – we provide comprehensive solutions from project initiation to conclusion. With a demonstrated ability to manage projects from conceptualization to execution, we are driven to undertake diverse projects across various industries, both regionally and globally.

Our skilled teams are equipped to deliver precise and timely installation services, ensuring your systems are operational within stipulated timeframes and function as intended. Trust EBM for seamless and efficient project execution, regardless of industry or geographical scope.

# PREVENTIVE AND PERIODIC MAINTENANCE

## For Plant Machinery and Equipments

EBM have skilful and experienced engineers who can provide diagnosis and technical assistance for new and existing machinery including fire curtains, fire pump sets, chillers, turbines, compressors, fans, blowers, boilers, flowmeters, pumps, cranes, water treatment de-mineralizing and filters, pressure vessels, reactors, heat exchangers, heaters, dryers, purifiers, evaporators, instrumentation, agitators, valves, actuators and burners etc.

### **Value-Added Services**

Our comprehensive support spans on-call services to customized annual service contracts, meticulously addressing every aspect of operation. Through thorough inspections of all operational variables, we ensure no facet of machine repair is overlooked, ensuring uninterrupted continuity and productivity for your business.

### **Preventive Maintenance Services**

Beyond standard repair practices, we offer unique services for chiller and boiler maintenance throughout their entire lifecycle. Experience quantifiable enhancements in equipment performance and efficiency through our preventive maintenance services.

Key Services Include:

- Efficient field service and commissioning for boilers, burners, and inert gas systems from major brands.
- Comprehensive evaluation and optimization of steam or chiller plants.
- Combustion adjustments and optimization.

With over 30 years of experience in the industrial process field, EBM is a leader in electromechanical works, industrial installations, and maintenance. Our customer and product-focused business processes, coupled with a legacy of implementing cutting-edge technologies, are the key differentiators setting EBM apart.
